About SHOPPERZ - It'll blow your mind.

We would like to share a little bit about our story and how we can help you achieve your blogging goals. Specifically, why we think...and know firsthand!...that building a E-commerce business, (aka "niche website shop", "authority website" or "publishing brand") is one of the most exciting and lucrative business models around right now.

But first, let me take a quick step back to provide you with a bit more context on who I am and how I went from crunching numbers as an accountant to building multiple 6-figure blogging businesses.

The Start Of My Journey See for yourself.

It was November 2012 and I was just wasting away at PwC as an accounting consultant to the CFO of the Department of Defense, which sounds 10 times cooler than it was.

Around the end of 2012 I finally started to get fed up. I wanted to earn more money than the traditional 9-5, wait-your-turn, ladder climb can provide. I wanted more freedom to work when I want, where I want. And I wanted to build a valuable asset for myself.

With all the constraints and barriers I propped up for myself, I figured the best way to make this happen would be to leverage the internet to make money.
